

As a Mother it is hard to find a radio station that is wholesome and uplifting to allow my small children and teens, but K-love has become that station for us. We listen to it everyday as we run our errands or take the older ones to school. Many single people and families that I know listen to this station, and I believe that you would be put this community along with others at a great disadvantage by taking away K-Love. I believe public interest would best be served by allowing us to keep our "positive, encouraging" radio station.

Thank you for you time,

Sarah McCormick
